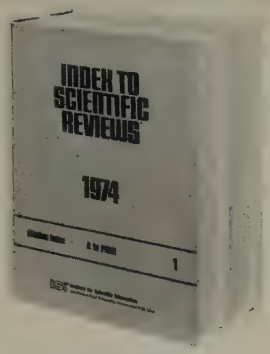
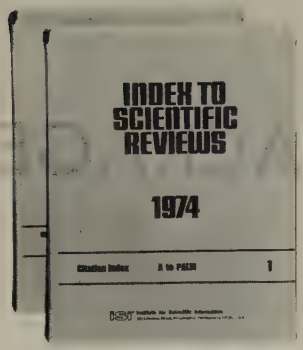
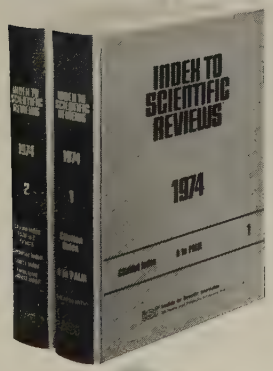
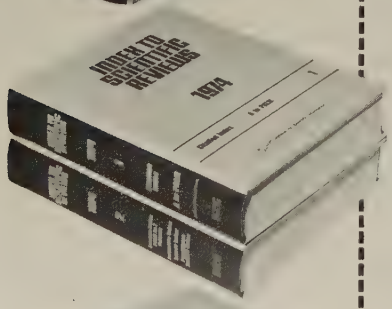
CITED JOURNAL PACKAGE

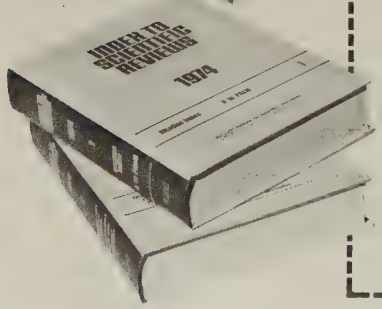
ANY WAY YOU LOOK AT IT, THIS NEW REFERENCE IS THE PLACE TO LOOK FIRST











. . . because our comprehensive, multidisciplinary *Index to Scientific Reviews*™ will lead you directly to review articles on just about any science subject. And because it's organized so you can find exactly the reviews you need, in several different ways. All of them fast and easy.

Each year *ISR*™ indexes thousands of reviews in some 100 disciplines, from the world's leading science and technology journals. Plus those in the regular "review" publications. And gives you timely twice-a-year coverage through a semi-annual edition and an annual cumulation.

At only $250 per year, ISR is an effective way to cover the journal literature for those who can't afford the major indexes. Or, for those who place a premium on finding review articles with less effort, *ISR* can complement the major indexes.

The 1975 *ISR* semi-annual is now available. Just use the coupon below to learn why the new *Index to Scientific Reviews* may be tailor-made for your organization.
